ABOUT US

Established in 2013, Mustang Services is a leading French company specializing in the drilling sector. We provide comprehensive solutions for geothermal, oil and gas industries, including directional drilling, fishing and equipment supply for various projects.

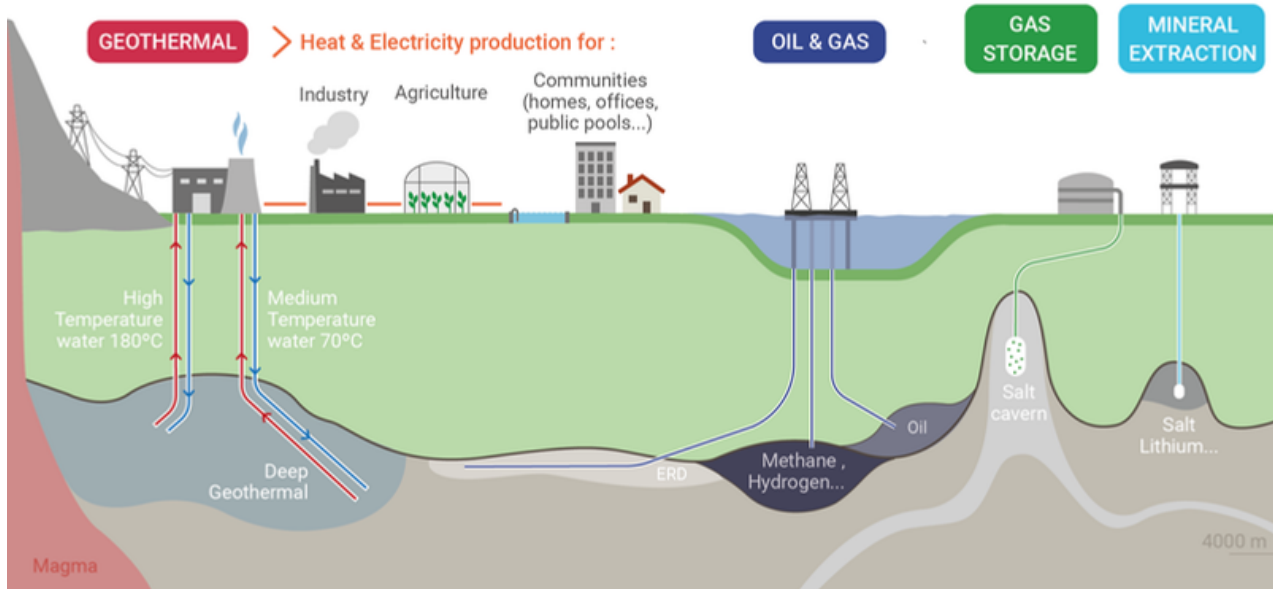

As a national leader, we pride ourselves on addressing intricate technical challenges with innovation, quality, and customer satisfaction.

OUR VALUES

Your go-to for precision directional drilling and fishing solutions, delivering excellence, safety, and cutting-edge technology for complex drilling challenges.

We are continually exploring groundbreaking methods and technologies to **redefine the boundaries of the drilling industry**. This relentless pursuit of innovation steers each of our projects, guiding us toward contemporary and efficient solutions that address the evolving needs of our clientele.

Our steadfast commitment to excellence sets us apart. Integrity, quality, and **customer satisfaction** form the cornerstone of our ethos. This isn't merely a pledge but a benchmark we consistently surpass.

Agility and **adaptability** stand as fundamental tenets of our operational approach. Recognizing the unique nature of each project, we endeavor to deliver bespoke solutions tailored to its specific demands.

Furthermore, our dedication to **sustainability** is paramount. Our substantial investment in geothermal energy underscores our commitment to transitioning towards renewable energy sources. As a socially responsible enterprise, we are driven to make a constructive impact. While strengthening our local roots, our global outreach contributes to crafting a sustainable future for forthcoming generations.

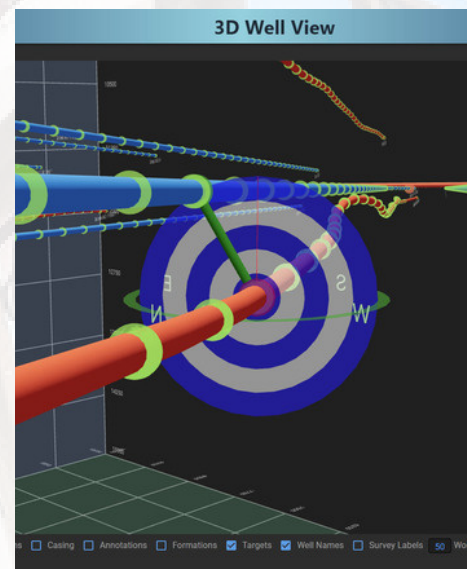

OUR SERVICES

DIRECTIONAL DRILLING

Directional drilling stands as a cornerstone of Mustang Services expertise, setting us apart with our specialized proficiency in this field. To ensure optimal accuracy, we rely on our own **Positive Pulse MWD** equipment & **Mudmotors**. This allows to provide real-time data (inclination, azimuth, temperature and vibration) facilitating precise and controlled trajectories.

A pivotal element enhancing our efficiency is the adoption of the Innova Drilling Intervention software. This advanced software allows us to optimize every drilling phase. By analyzing variables like cost, torque, and anti-collision criteria, Innova offers us clear insights and precise recommendations for each project.

We are committed to delivering tailored, precise, and efficient solutions to meet the most demanding needs of our clients.

- PDM available from 3 1/8" to 9 5/8" with wide range of power sections including high temp stators
- RSS Push and Point-the-bit technologies
- Several MWD kits including high temp electronics (up to 200°C)
- Well planning
- Torque and Drag
- Hydraulics
- Anticollision
- High frequency Data recorder for downhole logging

OUR SERVICES

FISHING

When unexpected downhole obstacles or equipment failures occur, our fishing services team is ready to respond quickly and effectively. We have a proven track record of retrieving lost or stuck tools, ensuring minimal downtime.

Fishing is at the core of Mustang Services expertise and it stands as a pivotal discipline within the drilling sector.

Our strength is the ability to provide dedicated tools in short notice conditions. As we have partnership with machining company certified API 5 & 7, we build our own tools with the possibility to design and build special equipment fine tuned to specific applications.

- *Fishing services on rig site during drilling operations*
- *Fishing services for Workover (WO) operations*
- *Fishing services for Plug and Abandonment (P&A) operations*
- *Rental or Sale of Fishing equipments*

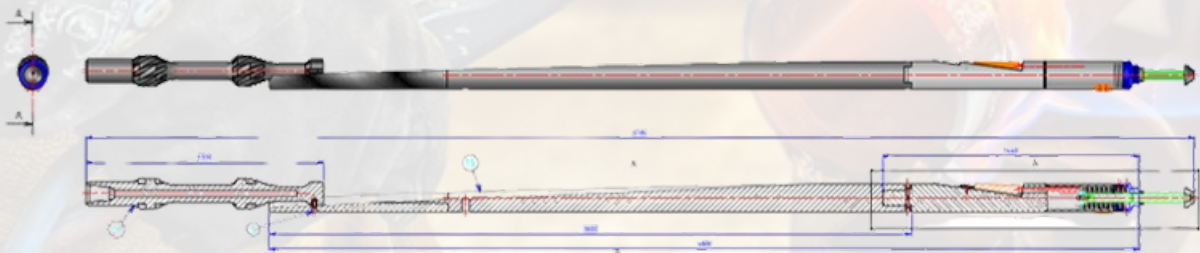

OUR SERVICES

DOWNHOLE TOOLS

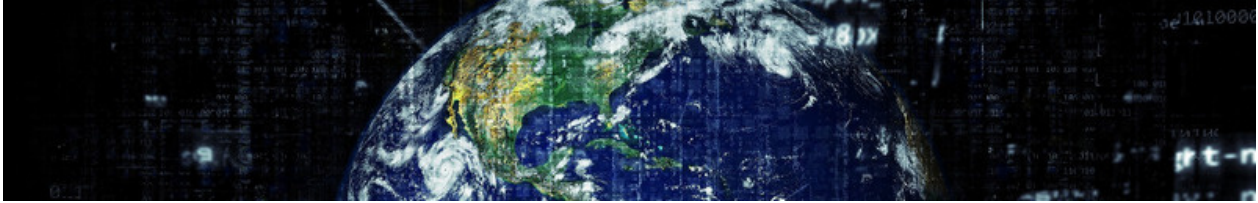

Downhole tools are the unsung heroes of drilling operations. Their durability, precision, and diverse functions are indispensable assets in the O&G and geothermal industry, contributing to efficient drilling, data collection, and wellbore stability. As technology continues to advance, downhole tools will play an increasingly vital role in optimizing drilling processes and reducing environmental impact.

At Mustang Services, our array of downhole tools is carefully curated and consistently updated to meet the most demanding technical challenges. Engineered to withstand the extreme conditions encountered in wellbores, these tools assure utmost durability and reliability.

We can propose variety of different equipments such: Drilling Bits (PDCs), Underreamers, Drilling Jars, Stabilizers, Tubulars, Whipstock systems etc...

OUR ACHIEVEMENTS

Mustang Services is currently undergoing **international expansion**, showcasing significant growth since 2019. Our commitment to excellence, innovation, and quality has enabled us to successfully expand our operations beyond national borders.

This expansion underscores our position as a **leader in the drilling sector**, providing our specialized solutions to a global audience.

OUR EXPERIENCE

Between **2019** and **2023**, more than :

57 200 meters drilled

Geothermal, O&G, Gas storage

32 wells drilled

Up to 3 000m TVD

136 Fishing, Workover and P&A

Europe and Africa

WHY CHOOSE US

EXPERT IN OUR FIELD

We excel in three pivotal areas: directional drilling, fishing, and downhole tooling. Our proficiency in directional drilling ensures precise subsurface navigation, while our expertise in fishing enables efficient recovery of stuck equipment. Furthermore, our advanced downhole tools ensure seamless and reliable drilling operations.

1

2

TAILORED EXCELLENCE

We adopt a customer-centric approach, always prioritizing your needs and objectives. This mindset enables us to craft custom solutions tailored precisely to your unique requirements. With deep expertise, we are committed to delivering reliable and personalized services, ensuring your satisfaction and the success of every project.

3

UNWAVERING RELIABILITY

Mustang Services is synonymous with consistency. Clients can rely on our track record of delivering on promises, meeting deadlines, and exceeding expectations.

INTERNATIONAL PRESENCE

4

While rooted in excellence locally, our expanding global footprint showcases our adaptability and commitment to delivering world-class drilling solutions worldwide.

EXPERIENCE

With years of industry expertise under our belt, we've adeptly executed a diverse array of projects, earning trust from clients across multiple sectors. Clients can rely on us to tackle even the most demanding challenges with unmatched confidence and efficiency.
